What does the TAC do?

In Victoria the Transport Accident Commission (TAC) works to prevent accidents and support those who have been injured on our roads.

The TAC pays for medical treatment, rehabilitation services, disability services, income assistance, travel and household support services to help you get your life back on track after a transport accident.

What does VicRoads do?

We exist to provide Victorians with safe and easy connections to the people and places that matter most to them.

Driver think rider. Rider think driver.

Too many motorcycle riders are dying or being seriously injured on our roads - and it is the responsibility of all of us, both drivers and riders, to change this. We're asking both drivers and riders to look out for each other on the road as we all work Towards Zero lives lost and serious injuries on our roads.
